

Dear Coaches and Convenors,

As OFSAA Track and Field 2015 Championships are quickly approaching, I wanted to provide you with some important information.

This year we will be moving away from a printed program format and utilizing an app, called Sport On The Go, to foster communications pertaining to the event. Important meet updates will be pushed out to all phones who have the app downloaded. Further, all event information including schedule, heats, finals, results, photos and messages from our sponsors, will be hosted in this location.

We encourage all coaches, athletes and supporters of OFSAA Track and Field 2015 to download the Sport On The Go app from their appropriate app store (free of charge) as soon as possible. *Please note that this app is only available for Smart Phones and iPhones. Blackberries do not support this app.*

Once the app is downloaded, you must search for our event, which is titled **2015 OFSAA Track and Field**. Once the event is located, you must follow the event. Failure to follow the event will result in missed communications through the push notifications capabilities that will be being utilized.

Attached is an instruction sheet to help with the downloading and use of the app. It will also be posted to the OFSAA Track and Field 2015 website. Feel free to provide these instructions to all necessary persons as required. If you have any questions, you may contact me directly, or send any inquiries to ofsaa.track.2015@gmail.com.

Best of luck to your athletes at the upcoming qualifying meets,
Caitlin
